Paper B-3-01

Microtunneling in San Diego

Craig Camp

Jacobs Associates, San Diego, CA

ABSTRACT: San Diego has had a host of microtunneling projects. This paper will focus on several, not all, of the microtunneling projects that have been constructed in San Diego County and lessons learned. The overview of projects will include some projects that are slated to be constructed over the next few years and in some cases why microtunneling was not selected as the preferred construction method.
