Université Laval NASTT Student Chapter Report on Chapter Activities in 2018

In 2018, Professor Geneviève Pelletier (**member #5081**), Faculty advisor of the Université Laval NASTT Student Chapter, promoted the Student Chapter and many graduated students from the Department of Civil and Water Engineering joined the Chapter.

We held one meeting during the Fall semester to elect our board and organize our participation at the INFRA 2018 conference in Quebec City. We elected the new board members and they are:

- 1) President, Treasurer and Secretary: Ms. Françoise Tardif; and
- 2) Vice-President: Béatrice Pineau.

At least 16 students joined our Student Chapter this year, refer to the EXCEL sheet provided with this report.

From November 19th to 21st, our Chapter will attend the INFRA 2018 conference at the *Centre des congrès* in Quebec City, QC. This conference is organized by the CERIU, *Centre d'Expertise et Recherche en Infrastructures Urbaines*, and promotes trenchless technologies to the Quebec community. We were awarded 35 day-passes to attend this event. This year, the conference will be in November, which is better timing for undergraduate students.

In 2019, we will continue to recruit new members and will strengthen contact with past members who work on rehabilitation projects. We will organize our University's participation at INFRA 2019 that should be held in Montreal.

Professor Geneviève Pelletier, Faculty Advisor
